District Improvement Plan

2020-2021

Accountability Rating: Not Rated: Declared State of Disaster

Mission Statement

The mission of Nederland Independent School District is to provide an educational environment that will enable all students to develop essential academic skills and knowledge for a lifetime of learning and to prepare students to be responsible, contributing citizens in a diverse and changing world.

Vision

The Vision of Nederland Independent School District is to provide an environment where learning is the highest priority and students demonstrate civic responsibility, prepare for post-secondary education and careers, and engage in positive personal development.

Core Beliefs

Nederland ISD Belief System:

Education is a shared responsibility of students, school, home and community. With that as an essential principle, we believe the following to be true for students, staff, families and the community:

- Everyone has equal inherent worth and deserves to be treated with respect and dignity.
- Everyone needs challenge, opportunity and encouragement.
- Each person is unique.
- Meaningful relationships have profound lifelong impact.
- Integrity is essential.
- Imagination and creativity are vital.

- A safe environment is necessary for learning.
- Every person can learn.
- Each person is ultimately responsible for his/her own learning.
- Learning is lifelong and unlimited.
- There is always room for improvement.
- All students must graduate with the skills they need to pursue their aspirations.

Comprehensive Needs Assessment

Demographics

Demographics Summary

The District Educational Improvement Council (DEIC) Met on November 12, 2020 to review and provide input in the District Improvement Plan. Due to COVID-19 there were no State Assessments given in the Spring of 2020, therefore much of the data and needs will be based on the 2018-19 Texas Academic Performance Report (TAPR).

Nederland ISD is located in Southeast Texas in the heart of Jefferson County. It is easily accessed by Highway 69 and Interstate 10 between Beaumont and Port Arthur, Texas. Nederland ISD less than 100 miles from Houston and less than 50 miles from the Louisiana border. With a current enrollment of 5018 students, Nederland Independent School District is the largest employer in the city.

Nederland ISD educates approximately 5018 students in the 8 campuses:

- Nederland High School
- C. O. Wilson Middle School
- Central Middle School
- Highland Park Elementary
- Hillcrest Elementary
- Helena Park Elementary
- Langham Elementary
- Alternative Campus

The District and Campus Student Demographics are as follows:

Nederland ISD's teacher turnover rate is 10.3% compared to the state's turnover rate of 16.5%.

The Nederland Independent School District is nestled in the Southeast corner of Texas where public education is the heart and soul of communities. Nederland ISD has a 100 year long standing tradition of excellence in the classroom by preparing students for post-secondary education, trades, and careers. Nederland ISD consists of a diverse student population with a cross section of socioeconomic backgrounds. The petrochemical industry supports most families bringing both blue collar workers and top notch professionals to the area. Additionally, Nederland ISD believes that members of the Nederland community and local businesses are an essential part in the growth and development of our students and district. We continuously strive to create mutually beneficial relationships within our school community.

Demographics Strengths

Nederland ISD is comprised of a diverse student population.

Nederland ISD has a greater percentage of experienced teachers than is found throughout the state.

Nederland ISD students perform well above the state on College Entrance Exams (SAT and ACT).

Nederland ISD students perform well above the state on College, Career, and Military Readiness.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): The percentage of students who Meets Grade Level and Masters Grade level is disproportionate for students who are at risk and in special education to the students who Approach Grade Level on STAAR/EPC assessments. **Root Cause:** We need to continue to a growth mindset to differentiate for our students to achieve a deeper level of understanding of the content.

Student Learning Strengths

When data for grades 3-8 are analyzed individually, NISD students performed equal to or outperformed the state in all tested areas but two: fifth grade Science and seventh grade Reading. When End-of-Course data are reviewed, NISD students outperformed the state in each content area tested.

Once again this year the district as well as all our campuses earned the “Met Standard” rating in the state accountability system! This is the highest rating that can be earned by any campus. In total twenty distinction designations were earned by Nederland ISD campuses.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): The percentage of students who Meets and Masters Grade Level is disproportionate to the percentage of students who Approach Grade Level on STAAR/EOC assessments. **Root Cause:** We need to continue to focus on the growth mindset to grow our students to achieve a deeper level of understanding of the content.

Problem Statement 2 (Prioritized): Increase focus on instructional strategies to meet the needs of each student population including 504, Special Education, ESL, Bilingual, Dyslexia, and RtI to increase each student's growth. **Root Cause:** As state standards have increased there is more emphasis on student growth instead of a pass/fail philosophy. We continue to transition to the growth model.

Problem Statement 3 (Prioritized): All campuses in NISD did not meet all campus performance objective targets for 2018-2019. **Root Cause:** The need to deepen understanding of data analysis and addressing specific academic needs of all students.

Problem Statement 4: Consolidated Grant Application: Students in Special Education and English Language Learners across the district are under performing in comparison to other student groups. **Root Cause:** We need to deepen the support data analysis and data-driven instruction. We need to strengthen the connection between staff development plans and data.

Problem Statement 5: Failure of the District Professional Learning Communities monthly training disseminated on each campus with fidelity.. **Root Cause:** Inconsistency of the Professional Learning Communities on each campus.

District Processes & Programs

District Processes & Programs Summary

Nederland ISD has developed different processes and programs to support our overall goal of helping each student develop the educational, social, and emotional skills necessary to be successful in life. The following summary outlines the personnel, instruction and curriculum, technology, and organizational processes and programs used to achieve this goal.

Beginning with personnel, Nederland ISD currently has 100 percent of all staff members meeting the highly qualified status. However, the turnover rate for Nederland ISD is 10.3 percent which is significantly lower than the state at 16.5 percent. The average years of experience of Nederland teachers is 14.6 years compared to 11.1 years across the State. The average experience with the District is 10.0 years compared to 7.2 years across the State. Fifty four members of our staff or 14.9 percent hold a Masters degree. Our salary and benefits are competitive with surrounding districts allowing us to attract and retain high quality staff. The support program for new teachers is evaluated and updated annually to provide better support throughout the year. Staff members are provided opportunities to attend professional learning for their individual growth, district initiatives, and other areas as needed. Administrators are supported through a variety of learning opportunities and professional organizations.

In the area of Curriculum and Instruction, Nederland Independent School District uses the TEKS Resources System (TRS) as the basis for curriculum and instruction. The TRS provides the Year at a Glance (YAG) as the scope and sequence; Instructional Focus Document (IFDs) to help teachers see the depth to which a student expectation should be taught; and the Vertical Alignment Document (VAD), which allows teachers to see what has been taught prior to their grade level and what comes after their grade level. Academic Vocabulary is also identified for teachers to help students acquire the necessary information for a particular concept. Another key feature of the TRS is the outlining of where students routinely have misconceptions of the content, thus allowing teachers to target those areas when developing their lessons.

Areas of need include the following:

Curriculum and Instruction:

Increase Inclusion practices

- PLC Meetings - Data will drive decisions in our continuous improvement model: Monitor and assess curriculum alignment and instruction through the use of district developed assessments consistently across all campuses. The data from the assessments will help guide instructional decisions.
- Continue implementation of RtI to support students in acquiring the concepts being taught.
- Address concerns identified in the Special Education, RtI, Gifted and Talented, Bilingual/ESL, 504 and dyslexia program evaluations.
- Implement SLO/TTESS/TPESS.
- Increase and refine staff development regarding the writing process including revising and editing.
- Increase and refine staff development regarding reading.
- Increase teachers' implementation and administrators' monitoring of the ELPS to ensure each student gains one year of growth each school year.

- Embed rigor, relevance, and engagement in all staff development, coaching, and planning sessions across all content areas.
- Create a systemic process to identify, recruit, and support economically disadvantaged and underrepresented student groups in advanced classes.
- Provide students access to a diversity of academic programs and integrate technology.
- Continue the implementation of Project Based Learning (PBL) to provide students opportunities to develop 21st Century skills.
- Provide coaching support to teachers

Career and Technical Education (CTE):

- Improve, expand, modernize CTE programs, including relevant technology.
- Provide training for teachers ("just in time", materials, curriculum).
- Increase the number of Industry Based certificates earned.
- Implement changes recommended in the CTE Program Evaluation.

Gifted and Talented Education (GT):

- Continue to challenge, enrich, and enhance the NISD curriculum for students in the GT program.
- Provide enrichment activities for students in the GT program.

Curriculum and Instruction:

- Ongoing training for administrators to support campus teachers.
- The Curriculum and Instruction staff remains dedicated to providing all students access to the general curriculum to the maximum extent possible through a blended model of appropriate instruction, accommodations/modifications, and integrated behavior management for students' learning
- Curriculum and Instruction Department and campuses monitor Tier 1 instruction in core content area classes to ensure English Language Learners, Special Education, RtI, Gifted and Talented, Bilingual/ESL, 504 and dyslexia program were given appropriate accommodations to meet their individual needs.

ESL:

- to continue to focus on blending instructional practices and accommodations, along with the process of good Tier 1 instruction for English Language Learners and students with disabilities.
 - to continue to monitor the appropriate use of accommodations in all classrooms for English Language Learners and students with disabilities.
 - to continue to provide staff development to administrators to work with all teachers who instruct English Language Learners and students with disabilities.
 - to provide professional development opportunities for ELL teachers and coordinators on second language acquisition and writing strategies to share during teacher training and planning/coaching sessions.
 - to continue providing support to campuses by bridging and analyzing TELPAS and STAAR data to improve English language acquisition and academic development.
- to collaborate among Curriculum and Instruction staff to help build a strong curriculum for all learners in a non-restrictive environment. assistant superintendent, directors, and coordinators will collaborate closely in order to close the instructional gap between all student groups, especially

English Language Learners and students with disabilities.

- to provide adequate planning time and support for our teachers throughout the year.

Special Education:

- to continue to focus on blending instructional practices and accommodations, along with the process of good Tier 1 instruction for English Language Learners and students with disabilities.
- to continue to monitor the appropriate use of accommodations in all classrooms for English Language Learners and students with disabilities.
- to continue to provide staff development to administrators to work with all teachers who instruct English Language Learners and students with disabilities.
- to provide professional development opportunities for ELL teachers and coordinators on second language acquisition and writing strategies to share during teacher training and planning/coaching sessions.
- to continue providing support to campuses by bridging and analyzing TELPAS and STAAR data to improve English language acquisition and academic development.
- to collaborate among Curriculum and Instruction staff to help build a strong curriculum for all learners in a non-restrictive environment. assistant superintendent, directors, and coordinators will collaborate closely in order to close the instructional gap between all student groups, especially English Language Learners and students with disabilities.
- to provide adequate planning time and support for our teachers throughout the year.

Finally, the integration of technology into the interactive classroom allowing for collaboration is the key to education in today's classroom. The ability to share video, audio, multimedia files and use web 2.0 tools is invaluable, but it goes beyond that. The goal is to equip classrooms with technologies that make them completely interactive and icloud based at the same time. The right combination of technology and instructional strategies improves learning because it thoroughly engages students. Learning experiences take place in authentic settings and require collaboration and management of complex processes. These experiences involve critical thinking, social responsibility, complex decision making, and sophisticated problem solving. As we move forward, infusing interactive classrooms with technology resources is critical for success. Nederland Independent School District, with the support of the community, shall design, implement, and maintain a technology enhanced educational delivery system to enable all students to excel in an information driven global society. Inherent to this system is a competent, well trained staff with access to appropriate information and productivity resources.

Nederland ISD envisions a technology rich learning environment where students can expand their knowledge base by accessing, analyzing, evaluating, and communicating information expediently and efficiently. Students will improve their critical thinking, problem solving, and decision making skills; and learn to work ethically, independently, and collaboratively. Nederland ISD envisions a technology rich learning environment where educators can improve

instructional strategies to increase achievement for all students, regardless of their ethnicity, socioeconomic status, or learning styles. Educators will accurately and efficiently assess, monitor, and communicate student progress to parents and improve skills through hands on staff development in technology and the sharing of knowledge and resources with colleagues. Nederland ISD envisions a technology rich learning environment where administrators can demonstrate a vision for maximizing student achievement and staff productivity, integrate technology into procedures and guides and provide easy access to data sources for instructional and administrative decision making. Administrators will secure funding to provide equipment, staff development, and support for reaching district technology goals and objectives.

The Nederland ISD Technology Plan supports state curriculum standards. Student standards for technology as defined by the Technology Applications Texas Essential Knowledge and Skills (TEKS) are addressed as required in the Texas Education Code, Section 28.002. This plan follows the guidelines set forth by the Commissioner of Education for the State of Texas in the Instructions for Technology Plan Approval Process for Universal Service Fund ERate Discounts and the State of Texas Long Range Plan for Technology 2006-2020. Technology plays a pivotal role in today's teaching and learning experiences. This plan stresses the importance of ongoing and sustained staff development in the integration of technology into the curriculum for teachers, principals, administrators, and school library media personnel to further the effective use of technology in the classroom or library media center. It also addresses the four key areas in accordance with the Long Range Plan for Technology. The four key areas addressed include Teaching and Learning, Educator Preparation and Development, Leadership, Administration and Instructional Support Services and Infrastructure for Technology. NISD strives to create technology infused classrooms allowing students to learn the knowledge and skills of the core curriculum while using technology as a tool. Educators are challenged not only to use technology as one of the many tools available to help students master defined content and performance standards but also to know when a technology is the most appropriate to help students learn or demonstrate a particular concept or skill.

Combining the benefits of connectivity and integration with other new and emerging technologies empowers students to become competitive, productive, and independent members of our society. The degree to which Nederland ISD is successful in preparing its students for the future will depend on the development of a technologically competent faculty and the availability of the appropriate hardware, software, and connectivity.

Nederland ISD completed the three year roll-out of a 1:1 initiative with hardware, professional learning for staff, and support structures due to the occurrence of COVID 19 forcing the implementation of the plan into fruition during the Spring and Summer of 2020.

District Processes & Programs Strengths

Staff Quality, Recruitment, and Retention Strengths

One of the strengths of Nederland ISD is providing ongoing opportunities to attend professional development in the District, Regional Service Center and to attend state wide conferences. Nederland ISD is forward thinking and looking to transform education for the 21st Century Learner.

Human Resources:

- Collaboration with Technology Department to implement electronic on boarding for professional and paraprofessional new hires.
- Collaboration and information sharing with area districts.
- On-site badging.

- NISD attends several Career Fairs to recruit potential applicants.
- Online applications for Operations.
- New Teachers are supported through the NIT and mentor assigned.

Leadership Development:

- The Leadership Professional Learning Communities (Assistant Principals, Counselors, District Leadership Team (DLT), Aspiring Leaders (LEAD), Principals, District Instructional(DIL), Student Ambassadors, and Secretary Leader provides a streamlined support and development system to all district leaders regardless of their level of experience as well as developing them for their future pathway as administrators. Each leadership institute provides feedback at the completion of the course and that feedback is used to refine the program for the upcoming year.
- Members from School Administration have presented and are encouraged to present at local and state meetings and conferences.

Curriculum and Instruction:

- Provide teachers with TEKS-based materials designed to ensure rigor, relevance, and engagement.
- Differentiate support to struggling campuses through the Monitor Schools process.
- Provide professional development for staff development to all teachers that included individual choice, gifted and talented options, and content updates, pedagogy, and planning.
- Provide ongoing content staff development throughout the year to reinforce, extend, and meet “just in time” teacher needs resulting in improvement to first-time instruction.
- Provide professional development for teachers in designing and delivering high quality virtual lessons for online learners.

Career and Technical Education (CTE):

- Provide professional development for staff development to all teachers that included individual choice, gifted and talented options, and content updates, pedagogy, and planning.
- Provide ongoing content staff development throughout the year to reinforce, extend, and meet “just in time” teacher needs resulting in improvement to first-time instruction.
- Provide professional development for teachers in designing and delivering high quality virtual lessons for online learners.

Gifted and Talented Education (GT):

- Provide a wide assortment of professional development sessions to ensure teachers at meeting the needs of students in the GT program.

Educational Support Services: Building Instructional Capacity

- Collaborating with- in and out of the district experts, as a department we continue to work toward successful, high quality and rigorous instruction to ensure quality learning of English Language Learners and students with disabilities.
- Providing professional development for teachers to address the needs of different groups of learners by supporting campuses with coaching, planning support and research based instructional materials specific to English Language Learners and students with disabilities continued to be a strong focus in the 2020-2021 school year.
- Provide professional development in meeting the needs of our virtual learners.

Problem Statements Identifying District Processes & Programs Needs

Problem Statement 1 (Prioritized): Within the district, there has been an increase in the number of students in need of additional services. **Root Cause:** Lack of differentiated lesson design and interventions to meet the needs of students in Tier 1.

Problem Statement 2 (Prioritized): Students and teachers need to have the capability to teach and learn with up-to-date technology. **Root Cause:** Lack of access to technology in the hands of teachers and students as well as the knowledge on how to leverage the technology in developing lessons and improving student achievement..

Problem Statement 3: Teachers, administrators and instructional aides need continual opportunities for staff development. **Root Cause:** Professional Learning is essential for all staff in an effort to improve student achievement and the learning environment.

Problem Statement 4: Recruiting highly qualified staff for high need staffing areas. **Root Cause:** Teacher shortage in these areas due to retirements and lack of new candidates.

Problem Statement 5: Nederland ISD budget concerns during COVID 19 due to reduced attendance causing staff compensation considerations. **Root Cause:** Recruiting certified and highly qualified teachers requires a competitive compensation plan and the money to fund it.

Problem Statement 6: HB3 requires training for mentor teachers involving new professional development plans to support the mentors and the new teachers the mentors assist. **Root Cause:** Support for new teachers to help retain them past the initial three years.

Problem Statement 7: Improve and maintain high staff morale while dealing with the demands of teaching during COVID 19. **Root Cause:** The new demands and stress placed on the staff by working during a pandemic have lowered staff morale.

Problem Statement 8: The number of students enrolled in advanced courses does not reflect the demographics of the district. **Root Cause:** The cost of the PSAT 8/9 for economically disadvantaged students discourages some students for signing up for the test.

Problem Statement 9: Students not planning for CCMR. **Root Cause:** The cost of the SAT, ACT, and TSIA prohibits economically disadvantaged students from taking the assessments.

District Culture and Climate

The Nederland ISD strives to create a culture and climate that is safe, caring, and collaborative so that all students reach their maximum potential. The district has a Student Code of Conduct that serves as a platform for student expectations and discipline. School safety is paramount to the efficacy of the district. NISD employs a resource officer and partners with our local community and local law enforcement agencies to ensure safety on all campuses. Our campuses offer a variety of extra-curricular school activities, clubs, and UIL events promoting student connectedness which enhance a positive school environment. Our parents are full partners in the education of NISD students. The district communication portal and other community outreach activities exhibit our desire to constantly improve communication between students, parents, teachers, and administrators. At Nederland ISD, we are "Committed to Excellence!" "Every Student Every Day!"

An Employee Engagement Survey was conducted spring 2019. Another Employee Engagement Survey will be conducted in Spring, 2021.

Parent and Community Engagement Summary

Parents are partners in their student's education. Their involvement is important to the school district's success. Nederland ISD strives to keep our parents and community informed through the use of the District's website, newsletters, and other forms of social media such as Facebook, Twitter, etc...Parents are encouraged to attend events at each of the campuses throughout the school year. Back to School events are held to assist parents in preparing their children for the beginning of a school year. The District also schedules a Parent Teacher Conference Days to meet with parents virtually at the end of the second grading period.

Perceptions Strengths

Areas of Needs for Parent and Community Involvement

Areas of need include the following:

- Increase business partnerships
- Increase donations
- Plan and implement District and each Campus Unity Project
- Increase District Communication
- Increase Social Media usage; including Spanish social media and website

District Culture and Climate Strengths

Moving into the 2020-2021 School year, the district is focused on the following:

- Working with campus staff to address the goal of decreasing the rate/number of discretionary placement at DAEP.
- Increase the campuses that are implementing PBIS at Level 1 (CHAMPS, RtI Behavior).
- Working with campus staff to address the goal of decreasing the rate/number of both in-school and out-of-school suspensions.
- Enhancing the work of the District's Restorative Discipline Committee.
- Continuing our school safety awareness initiative.
- Decreasing the total number of dropouts in both high school and middle school through the Dropout Recovery efforts.
- Increasing the rate of attendance for each campus.
- Providing improved training opportunities for campus-based staff and district administrators in research-based, proactive discipline strategies and restorative practices.
- Continuing the goal of increasing the use of Nederland ISD Tip Line to establish greater safety and security throughout the NISD community.
- Ensuring proper and timely completion of all designated safety drills and implementation of all Emergency Operation Plans (EOP).
- Removing any barriers to enrollment and providing supports for students in foster care placements, as well as those designated as homeless.

District Discipline and Conflict Resolution

The annual review of all discipline records included student conflicts, all forms of violence, bullying, drug offenses and DAEP placements. The data review confirmed that Nederland ISD has very few discipline records. There have been no significant increases when compared with previous years' data. This indicates that resolution programs and interventions are typically successful. The campuses will diligently continue to follow established practices and procedures for conflict resolution, drug and violence prevention and intervention. Since no changes will be made, no strategies will be included in this improvement plan except in the area of bullying. While the records do not indicate that bullying is a problem, the campus feels that it is important not to be complacent in this area and will include bullying prevention as a need in this plan. All discipline records will be carefully re-evaluated next year.

Problem Statements Identifying Perceptions Needs

Problem Statement 1 (Prioritized): Relational capacity growth needed to address student academic needs. **Root Cause:** A better understanding of the culture and needs of the sub populations within the district.

Problem Statement 2: Character Education Program is not implemented district wide. **Root Cause:** The Core Values education program has not been implemented at high

school as required by HB 1026.

Problem Statement 3: Increase in classroom removal of specific sub populations. **Root Cause:** Inconsistency of implementation of campus and classroom expectations and corrective responses.

Priority Problem Statements

Problem Statement 1: The percentage of students who Meets Grade Level and Masters Grade level is disproportionate for students who are at risk and in special education to the students who Approach Grade Level on STAAR/EPC assessments.

Root Cause 1: We need to continue to a growth mindset to differentiate for our students to achieve a deeper level of understanding of the content.

Problem Statement 1 Areas: Demographics

Problem Statement 2: All campuses in NISD did not meet all campus performance objective targets for 2018-2019.

Root Cause 2: The need to deepen understanding of data analysis and addressing specific academic needs of all students.

Problem Statement 2 Areas: Student Learning

Problem Statement 3: The percentage of students who Meets and Masters Grade Level is disproportionate to the percentage of students who Approach Grade Level on STAAR/EOC assessments.

Root Cause 3: We need to continue to focus on the growth mindset to grow our students to achieve a deeper level of understanding of the content.

Problem Statement 3 Areas: Student Learning

Problem Statement 4: Increase focus on instructional strategies to meet the needs of each student population including 504, Special Education, ESL, Bilingual, Dyslexia, and RtI to increase each student's growth.

Root Cause 4: As state standards have increased there is more emphasis on student growth instead of a pass/fail philosophy. We continue to transition to the growth model.

Problem Statement 4 Areas: Student Learning

Problem Statement 5: Within the district, there has been an increase in the number of students in need of additional services.

Root Cause 5: Lack of differentiated lesson design and interventions to meet the needs of students in Tier 1.

Problem Statement 5 Areas: District Processes & Programs

Problem Statement 6: Students and teachers need to have the capability to teach and learn with up-to-date technology.

Root Cause 6: Lack of access to technology in the hands of teachers and students as well as the knowledge on how to leverage the technology in developing lessons and improving student achievement..

Problem Statement 6 Areas: District Processes & Programs

Problem Statement 7: Relational capacity growth needed to address student academic needs.

Root Cause 7: A better understanding of the culture and needs of the sub populations within the district.

Goals

Revised/Approved: October 27, 2020

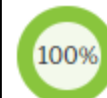

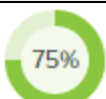

Goal 1: Nederland ISD will seek continuous student performance improvement by focusing on Early Childhood Literacy. The percent of 3rd grade students that score "Meets Grade Level" or above on STAAR Reading will increase from 59% to 62% by June 2024. (HB-3)

Performance Objective 1: By June, 2021, all elementary campuses in NISD will meet performance objective targets as outlined in the Campus Improvement Plans. Administration will support this attainment with the strategies outlined in the District Improvement Plan. STAAR results on the June 2021 Reading Assessment will be at a minimum of 59% meeting grade level in all student population groups.

HB3 Goal

Performance Objective 4 Problem Statements:

Demographics
Problem Statement 1: The percentage of students who Meets Grade Level and Masters Grade level is disproportionate for students who are at risk and in special education to the students who Approach Grade Level on STAAR/EPC assessments. Root Cause: We need to continue to a growth mindset to differentiate for our students to achieve a deeper level of understanding of the content.
Student Learning
Problem Statement 1: The percentage of students who Meets and Masters Grade Level is disproportionate to the percentage of students who Approach Grade Level on STAAR/EOC assessments. Root Cause: We need to continue to focus on the growth mindset to grow our students to achieve a deeper level of understanding of the content. Problem Statement 2: Increase focus on instructional strategies to meet the needs of each student population including 504, Special Education, ESL, Bilingual, Dyslexia, and RtI to increase each student's growth. Root Cause: As state standards have increased there is more emphasis on student growth instead of a pass/fail philosophy. We continue to transition to the growth model.

Goal 4: Nederland ISD will recruit and retain dedicated, quality personnel and provide a working environment committed to supporting and growing our employees to their full potential. We believe our team is our most important asset and our district will be a destination of excellence.

Performance Objective 1: Nederland ISD will implement recruitment, development, and retention strategies to maintain the best highly qualified staff.

Goal 5: Nederland ISD will provide a quality counseling program that supports the emotional and mental health of our students, and provides resources for parents and students to support academic planning from Kindergarten to 12th grade.

Performance Objective 3: In response to additional state and federal improvement planning requirements not addressed elsewhere in this plan, Nederland ISD will be 100% compliant by implementing the following strategies. The CNA process identified certain programs and requirements as important, but not currently needing priority focus. Assurance is given that each will be implemented at 100% and evaluated for implementation and impact.

1. Methods for addressing needs of students for special programs:
 - a. early mental health intervention and suicide prevention (District only)
 - b. conflict resolution programs [TEC 11.252(3)(B)]
 - c. drug and violence prevention and intervention [TEC 11.252(3)(B)]
 - d. dyslexia treatment and accelerated reading program [TEC 11.252(a)(3)(B)]
 - e. pregnancy related services [TEA Addendum]
 - f. homeless
2. Attendance
3. Dropout reduction
4. Integration of technology in instructional and administrative programs [TEC 11.252(a)(3)(D) and TEC 28.001]
5. Discipline management [TEC 11.252 (a)(3)(E)] and Discipline Management Programs [TEC 11.252] including:
 - a. prevention of and education concerning unwanted physical or verbal aggression,
 - b. sexual harassment
 - c. prevention, identification, response to and reporting of bullying or bully-like behavior (also see district requirements in #12 below)
6. Harassment and dating violence [TEC 37.001], [Family Code 71.0021], [TEC 37.0831]
7. Sexual abuse and other maltreatment of children, including methods for increasing staff, student and parent awareness and staff training [TEC 38.0041 (c)], [TEC 11.252(9)] DISTRICT PLAN ONLY Suggestion: Add Board Policy FFG (Exhibit) to the addendum and state that the campus follows those procedures. Then include a strategy for informing staff about the policy, and a strategy about including the information in the parent/student handbook to inform and train parents and students.
8. Career education to assist students in developing the knowledge, skills, and competencies necessary for a broad range of career opportunities
9. Strategies for recruiting high quality teachers and ensure that instruction will be provided by highly qualified teachers as defined by NCLB. Suggestion: add the district procedures to the addendum and state that the campus follows those procedures.
10. Training for Texas Behavior Support Initiative (TBSI) relating to instruction of students with disabilities and designed for educators who work primarily outside the area of special education
11. Coordinated school health activities and their evaluation as well as methods to ensure that students participate in the school's required physical activities.
12. The district's freedom from bullying policy and procedures must be included annually in the district improvement plan. [TEC 11.252]. The policy must include detailed requirements for the prevention, identification, response to and reporting of bullying. (also see campus requirements in #5C above)
13. Higher-Ed Information Strategies (Middle/Junior High and High Schools)
14. Migrant Services (All Campuses)
